Fire emblem warriors corrin guide

Are you prepared for this?! You ready for this?! If there's one way to describe Corrin's playstyle, it would be improvised. The attack also takes a decent bit of time to complete, which can be tough in a timed scenario. Weapon Skill Priority: Attack Skills: Rainstorm Must-have Strong I Low Strong II High Strong III Med Strong IV Med Strong V High Strong VI High Rainstorm is a definite must-have as it increases damage output for all regular and strong attacks. This does clear out large groups of enemies easily, but the downside of it is that it has a lot of end lag where Corrin is prone to being attacked. This can be attributed to his/her ability to turn into a dragon, as it is the sole reason he/she has such a unique moveset, visually and mechanically. Strong II's attack on the other hand, is extremely useful as it can be used to help extend combos easily and break down enemy stun gauges. Crest Priority: Attack Crests: Combo Must-Have Fang Low War God High Serenity High Awaken High Fury High Special High Fang is really the only crests that can be skipped early on. The attacks do have some small downsides however, C3 (L+L+H): Corrin moves forward with a quick thrust and quickly follows it with a horizontal slash. However, it is a bit hard to control, making it unreliable in some cases. Pair-up: Corrin boosts a Vanguard's Str, Mag and Ski when supporting them. After turning into a dragon, he/she will then fly backwards slightly, before ramming himself/herself into the crowd of enemies and transforming back. Strong V and Strong VI attacks both have their uses, as the former is great for taking out stun gauges, and the other is good for clearing out enemy hordes. Strong IV's attack is good as it can be used to reveal stun gauges. This is also the case with Monster units, not to mention other sword units weapons have Beastlayer on them naturally. Corrin will eat by kneeling in the ground, and will imitate his awakening in a drag. Regular μ : Regular Match Sequence: Corrin will cut horizontally, then make a kick in the opposite direction. As a physical unit, the Corrin's Str $\hat{\otimes}$ is higher than your Mag, although there are no problems for a unit that also has staff access. C5 (L+L+L+L+H): Corrin will do a jumping kick, then turn back a little, before turning his free arm into a claw and charging it with a dark energy. Skill skills: $\hat{\text{A}}\hat{\text{M}}\hat{\text{e}}\hat{\text{d}}\hat{\text{L}}\hat{\text{a}}\hat{\text{n}}\hat{\text{c}}\hat{\text{e}}$ During the second half of a special pair-up, Corrin will use the Yato and balan down, then sideways, then up. C4 (L+L+L+H): Corrin turns his free arm into a spear and pierces it into the ground, using it as an axis as he/she spins around it, hitting enemies 3 , then using it as a flashpoint when he/she torpedoes himself/herself forward into enemies. Bonus skills: $\hat{\text{A}}\hat{\text{D}}\hat{\text{o}}\hat{\text{w}}\hat{\text{n}}\hat{\text{A}}$ Antitriangle, on the other hand, allows Corrin to deal with lan-haunting units, which can be useful, especially given the fewest available axis units. Among all units, he $\hat{\text{A}}\hat{\text{t}}$ really excels in any respective Area, with its only prominent state being Block. C2 (L + H): Corrin quickly pushes his sword up, sending enemies through the air. The strong I'm on the low side $\hat{\text{A}}$ The attack requires Corrin to stay in charge, something that is $\hat{\otimes}$ ideal, especially when surrounded by a large group of enemies. $\hat{\text{A}}$ The crests of RemAdio and AlAvio are low on the scale, since the healing of other sources that do not drops $\hat{\text{A}}$ much valued. Due to the fact that Corrin needs to charge this attack to get the maximum efficiency out of it, it's not really worth the problem as it puts it in a prone state. That's $\hat{\otimes}$ especially so if $\hat{\text{A}}$ an Arena map, since not enough characters to secure this skill $\hat{\text{A}}\hat{\text{A}}$ $\hat{\text{S}}$ C6 (L+L+L+L+H): Corrin will turn into a dragon before running forward, then turning up like a drill, and hitting himself on the floor. Overall, Corrin faces an american competition from his other sword-shatouring compatriots, but has a moveset distinct enough to make him stand out from the pack. If the button is held $\hat{\otimes}$ for less than four seconds, Corrin will turn his head into his dragon verando and his free bra into a launch before making a piercing boost. The Defenses $\hat{\text{A}}$ Corrin $\hat{\text{A}}$ $\hat{\text{A}}$ Are Their attacks are extremely savage, with their vectors of movement being all over the place. Therefore, Axebreaker and Swordbreaker are good for him/her, as this will increase the damage production of Corrin $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{S}}$, allowing him to defeat commanders much faster. He/she will then hit the claw of the ground first, causing damage to a small area, before returning to a neutral position. War God give him more opportunities to make Criticals, Serenity increases how many Awakenings Corrin can perform, while Awaken increases its duration. Talent crests can be expected unless Corrin desperately needs the extra skill slot. C1 (strong attack): When holding the button, Corrin will load. Breaking Skills: Armor Strike $\hat{\text{A}}$ Must-have Perform a critical on an enemy reduces their defenses in half, which makes them very to kill. Armored units can give Corrin the biggest problem due to its high Def, and its triangular disadvantage against Knights and Generals can cause it to take a while to get them out. For the skills that Corrin wants, Astra and Armored Blow are high there on top in priority. Other abilities only for Corrin to have include Luna drilling the enemy defenses to do more damage, Trample that improves the base damage of Corrin $\hat{\text{A}}$ $\hat{\text{A}}$ units not mounted, Awakening increases damage during Awakening, Solidarity increases the Vanguard $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{A}}$ The last, but can be used to increase Luna's efficiency and activate Lethality more frequently. A fairly strong attack and can take a decent piece off the stun meter if given the opportunity. He/she will then send enemies to the tea while spinning like a saw blade. The airborne units $\hat{\text{A}}$ An $\hat{\text{a}}\hat{\text{a}}\hat{\text{o}}$ are very problem-minded for Corrin to deal with, as the Knights of The Cloth have low Def, and he/she has triangular advantage against the Knights of Wyvern. The crests of the mines may be fine due to falchion's problem, and with Lances, Corrin will likely take more damage against them due to the disadvantage of the triangle. Your Ski and Spd are also fine, though nothing extraordinary. $\hat{\text{A}}$ The rest of the crests are nice to have but $\hat{\text{A}}$ are prioritized due to weaker corrin's weaker defenses are not usually a problem in such cases. Update them as soon as possible. Again, a very rapid and better used attack a complete finisher as the enemy $\hat{\otimes}$ is usually sent away, making it difficult to follow with another combination. He/she will then grow dredger wings and send enemies higher up while spinning like a drill. A very quick attack, and too easy to match to break a stunning jig. Combo crests allow Corrin to increase pawS. laicifeneb ylemertxe eb nac skrow evom siht woh gniinrael os srednammoc ymene rof equag nuts eht laever seod kcatta siht tub ,lortnoc ot ltuiciffid tib A $\hat{\text{A}}\hat{\text{A}}\hat{\text{e}}$ elgnairttnA woL $\hat{\text{A}}\hat{\text{A}}\hat{\text{e}}$ yruT-yspoT $\hat{\text{A}}$ The crests $\hat{\text{A}}\hat{\text{e}}$ are so valued. However, the first parts are enough to prepare enemies for combat opportunities. Corrin will then end up turning his free hand into a claw, making an uppercut, then opening it, firing a laser sending enemies away. Defeat Skills: A gift of healing $\hat{\text{A}}\hat{\text{A}}$ $\hat{\text{A}}$ She will then turn forward three times, hitting the enemies around her as she moves forward, then pausing again before she makes a spinning jump, and hit the tea. The others are more situational, but they can work. The only one that really is worth the $\hat{\otimes}$ Awaken Gift, but even then there are better weapon effects to have. FAN Skills: Fury $\hat{\text{A}}\hat{\text{A}}$ Med Corrin has a decent area of effect skills that allow him to accumulate damage to the skill $\hat{\text{A}}\hat{\text{A}}$ $\hat{\text{A}}$ Sability Of Corrin $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{S}}$ Dracoshield is fine, as it increases its ally $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{S}}$ Because of the nature of the Movement of Corrin $\hat{\text{A}}$ $\hat{\text{A}}$ and the number of breaks, the later sections of the chain of attack may be difficult to combine. Defense Prisons: Medicinal $\hat{\text{A}}\hat{\text{A}}$ $\hat{\text{A}}$ Med Remedy $\hat{\text{A}}$ $\hat{\text{A}}$ $\hat{\text{A}}$ Med RemedyA Medicinal Crests are only used to unlock other crests in the tree. This $\hat{\otimes}$ is a similar case in contact with the Dracoslayer, since several units have the ability in your weapon of course. He/she will cut enemies with a flip back before pausing briefly. The final lag and pause during the load of your claw can be potential problems, but usually are $\hat{\text{a}}$ $\hat{\text{t}}$. arenA $\hat{\text{A}}\hat{\text{A}}$ T.
